

A REPORT ON INDUSTRIAL VISIT TO HITZEE EQUIPMENT PVT LTD

8th August 2024

1. Introduction

On 8th August 2024, the 1st-year MBA students of Shushruti Institute of Management Studies had the opportunity to visit 'Hitzee Equipments Pvt Ltd' as part of their curriculum. The visit was organized to provide practical insights into the functioning of the equipment manufacturing industry and to enhance the students' understanding of management practices in a real-world setting.

2. Objectives of the Visit

- To gain first-hand experience of the operations and management practices at Hitzee Equipments Pvt Ltd.
- To understand the challenges faced by the manufacturing industry.
- To learn about the latest technologies and processes used in equipment manufacturing.
- To interact with industry professionals and understand their roles and responsibilities.

3. Company Overview

Hitzee Equipments Pvt Ltd is a renowned company in the manufacturing industry, specialized in the manufacturing of industrial boilers. The company is known for its innovative approach, state-of-the-art manufacturing processes, and commitment to quality. With a strong market presence, Hitzee Equipments Pvt Ltd has established itself as a leader in its field.

4. Visit Details

The industrial visit began at 1:30 PM with a warm welcome from the company's representatives. The students were given an overview of the company's history, mission, and

vision. Following this, a detailed presentation was made on the company's product line, production processes, and the technologies used.

Students were then taken on a guided tour of the manufacturing facility, where they observed the production processes in action. They witnessed the various stages of manufacturing, from raw material handling to the final assembly and quality control.

The company representatives explained the importance of each stage and the challenges involved in maintaining efficiency and quality.

5. Interaction Session

The visit included an interactive session where students had the opportunity to ask questions and discuss various aspects of the business with the company's professionals. The discussion covered topics such as supply chain management, production planning, quality assurance, and the impact of technological advancements on manufacturing.

6. Conclusion

The industrial visit to Hitzee Equipments Pvt Ltd was an enriching experience for the students. It provided them with valuable insights into the manufacturing industry and allowed them to correlate theoretical knowledge with practical application. The visit was a significant step in their management education, offering a deeper understanding of the complexities involved in running a manufacturing business.

Acknowledgment:

We extend our heartfelt thanks to the management and staff of Hitzee Equipments Pvt Ltd for their hospitality and for providing our students with this invaluable learning experience.
